AT THE COURT HOUSE
Tonight Dr. Alderman Will Lecture
On Egypt and the Nile.

This is what the Raleigh Post has to say of Dr. Alderman's lecture last night. He will deliver the same lecture to our people here tonight at the court house. Let every one make a special effort to come out and hear him.

"Egypt and the Nile" was the subject on which Dr. Edwin A. Alderman, president of the state university, spoke and delighted all who heard him last evening.

"The lecture was given in aid of a charitable object, in the hall of the house of representatives at the capitol, and nearly all the seats were filled by one of the most cultivated audiences of the season.

"Always interesting and eloquent in his public addresses, Dr. Alderman was especially so last evening. His fund of historical information on the subject of his lecture was reinforced by a large amount of information and experience acquired during his recent visit to the land where the scene of his discourse was laid.

"The lecture abounded in humor and witicism, a fund of which is always available with the handsome and learned head of our leading educational institution, as well as being replete with the other virtues which go to make up a successful production of this character. The description of his experience at camel riding, etc., was greatly enjoyed, as were the many interesting features of the lecture, to properly summarize which would require columns of space.

"Altogether the lecture and the lecturer were among the most delightful and thoroughly enjoyed ever experienced in Raleigh."

DR. STAMEY SPEAKS.

At the Meeting of the Woman's Christian Temperance Union.

A very interesting meeting of this organization was held at Grace M. P. Church Dec. 8th, 1898. Sabbath observance, gospel temperance, curfew ordinance and other departments of temperance work were discussed. Report on gospel temperance was given; also report of the national temperance convention held at St. Paul, Minn.

A very profitable and interesting address was delivered by Dr. Stamey. He said he was not using one-tenth of the alcohol in his practice now that he did 24 months ago. He once thought alcohol could not be dispensed with in certain diseases, but he had learned this from actual experience.

He urged the parents to commence at the cradle to raise temperance sons and daughters. He insisted that the young ladies use their influence in social life in favor of temperance.

Dr. Stamey paid the managers of railroads a deserved compliment, for employing temperance men.

He said the railroad employees were among the best men, and he would prefer his sons being in the railroad service to any other, because of its strict adherence to temperance principles.

CRIMINAL DOCKET FINISHED.

Civil Docket Taken Up In Court Today.

The trial of Mason Smitherman for the murder of Harry Palmer consumed the whole day in court yesterday.

There was an argument, the state consenting to a verdict of murder in the second degree, at 5 o'clock in the afternoon. Judge Timberlake has not yet passed the sentence, wishing to learn more of the murderer's general character, before doing so.

Noah Headen, colored, was convicted this morning of perjury, but by request of Messrs. Bradshaw & Ragan, attorneys for defendant, the sentence, in this case also, is withheld until tomorrow.

Irvin Jones and James Lynn, both colored, were both convicted of the larceny of bicycles and sentenced to one year each, on the county roads.

This finished the criminal docket, and the civil docket was taken up this afternoon.

Mr. J. H. Hinton, a popular citizen of Wilmington, North Carolina, is at the white house. Mr. Hinton is accompanied by his wife. They will be in Washington for several days, as Mr. Hinton is here on personal business in which he is interested.

Representative Skinner, of North Carolina, was at the white house today for the purpose of attending to some local matters in which his constituents are interested.

A delegation from Norfolk, Va., is in the city for the purpose of urging clemency for John Anderson, convicted of murder in the high seas, and who is under sentence of death today.

Among the men who are working for Anderson is Ex-Congressman Bowden of Virginia.

A VACANT CHAIRMANSHIP

May Be Filled By Congressman Linney.

ONLY ONE CONTEST UP TO DATE.

That of Pearson in the Ninth—Like-ly That Others From This State Will Be Decided Upon.

Special to THE TELEGRAM.

Washington, Dec. 8.—In the next congress, by the retirement of General Walker, of Virginia, there will be a vacancy in the chairmanship of the Committee on Elections, No. 3. The ranking member on the committee, next to General Walker, is Representative Mesick, of Michigan. There is, however, considerable talk that Representative Linney, of North Carolina, may succeed General Walker to the chairmanship of the committee. Representative Linney is, during the present congress, on the Committee on Elections, No. 1, being the ranking member of that committee next to the chairman, Representative Robert W. Taylor, of Ohio.

The chairmanship of the Committee on Elections, No. 3, will have much influence upon the decision of the contested election cases from North Carolina, as the contests will be referred to this committee.

Thus far the only contest from North Carolina which has been definitely decided upon is that of Mr. Pearson, in the Ninth district. It is likely that other contests from the state will be decided upon, and the necessary official notice given within the time prescribed by law. As stated the other day, however, the belief is that there will not be as many contests from the state as was anticipated immediately after the election.

From Virginia there will be two, and perhaps three, contests, but not more. The cases from Virginia which have been definitely decided upon are those of Wise against Young, and General Walker against Judge Rhea. It is also likely that a contest will be instituted in the Petersburg, Virginia, district, now represented by Mr. Thorp.

Senator Bate, of Tennessee, was among the prominent southern arrivals in Washington yesterday. The Senator arrived in the morning, and went at once to the Ebbitt house where he is making his temporary headquarters. The Senator in speaking about political affairs stated yesterday that the inauguration of Mr. McMillan, as Governor, is being awaited with much interest, as he has long been one of the most prominent men in national affairs from the state. The Senator believes that the Philippine treaty may be prepared, and sent to congress shortly after the Christmas holidays, but he doubts as to whether the senate acts upon it during the present session.

Among the callers at the white house during the afternoon was Senator Tillman, of South Carolina. In conversation the Senator said he did not think there would be any congressional investigation of the troubles in North and South Carolina, at least during this session of congress.

Today the House of Representatives only will be in session, the Senate having adjourned over until Monday morning. It is likely that the House will adjourn over from this afternoon until Monday also.

Mr. J. H. Hinton, a popular citizen of Wilmington, North Carolina, is at the white house. Mr. Hinton is accompanied by his wife. They will be in Washington for several days, as Mr. Hinton is here on personal business in which he is interested.

Representative Skinner, of North Carolina, was at the white house today for the purpose of attending to some local matters in which his constituents are interested.

NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU,
HIGH POINT, N. C. Dec. 9.

Mrs. F. N. Tate and children left yesterday for Charlotte to join Mr. Tate, agent of the Southern depot at that place. As stated before, we regret exceedingly to lose them.

A gentleman passing through last night on No. 7, asked a bystander what town this was and the man immediately replied, "High Point, you fool; haven't you never heard of this place before?" The man, said the first, "I am not, but I asked what it was because I have never seen it before." "It is because you have never seen it before for heretofore everything was bright with electricity," said the man. "Oh, gosh, we are getting used to the dark here now, and then it don't make much difference, because some of our city fathers are as blind as a bat on some things, and light wouldn't do them any good," We want it distinctly understood that the foregoing statements did fall from the lips of two men last night at the depot, and that we are not to blame for hearing it.

Sapp's Racet Store windows look like a floral garden.

Why are those pasteboard doors of the postoffice building closed every night? It is becoming a nuisance. Many people going to entertainments cannot get their mail in the first part of the evening and afterwards the doors are closed. Until of late there never was a door to the front of the building, and we have our first mail to hear of anybody disturbing the post office.

R. L. Moore, of the firm of R. L. Moore & Co., of Statesville, is in the city fitting glasses to the eyes. He will be here tomorrow also. Go and see him at Ring's drugstore.

Services were held in the Episcopal church last night and this morning, conducted by Rev. Dr. Davis, of Concord, but we cannot learn when we send in our items what arrangements will be made as to services hereafter.

Our little carriers are getting along nicely delivering the papers on the few streets where they have been at work. We have not managed to get a good boy for every street yet, but we soon will have.

Geo. W. Vanstory, of Greensboro, who has been here a few days with horses at Welch's stables returned home on the noon train.

Academy of Music next week.

There are many theatrical organizations, some live for years, others die young. About as solid an organization as there is now travelling, is the one we shall all see next week—organized two years ago, and now on its solid foundation. It was formed in a small way by the well known comedian, Chelso D. Penick, and now it has an aggregation of 19 people of esteemed reputation, comedians, southerners, dancers, singers, high class specialty people, an attractive electric picture machine of up to date military and naval heroes, ships and everything pertaining to our recent Spanish trouble. Every style of play will be produced, from sensational melodrama, to the laughable farce comedy.

Out of a repertoire of thirty plays, eight of the very best will be produced. The opening bill of "A Kentucky Girl" contains most mechanical and electrical effects of the lot, but many of the others are on a different style.

The program will be changed nightly, and for 30 cents the best seat in the house can be purchased. As a convincing proof of the high standard of the troupe, an attractive electric picture machine of up to date military and naval heroes, ships and everything pertaining to our recent Spanish trouble. PRICES OF LIGHT.

Apropos of a recent statement in this paper that Greensboro should be furnished with commercial lighting facilities at cheaper rates than those given by the Greensboro Gas and Electric Light Co., Mr. R. J. Marks, the manager, has handed us a list of prices which he says are now being paid by other North Carolina cities, for gas, for lighting and other purposes.

He gives these figures to call attention to the fact that Greensboro is getting as good or better rates than most North Carolina towns and cities. He names Asheville, Salisbury, Fayetteville, Newbern, Charlotte, Wilmington and Raleigh. The prices quoted in all these for light, runs from \$2 to \$2.50; fuel, \$1.50 to \$2.50; power, \$1.30 to \$2.50; while in Greensboro, he puts the rates down at \$2.00 for lights; \$1.00 for fuel, and \$1 to 1.50 for power. He also shows that where there is competition the rates are equally high.

We have accepted Mr. Marks' own statement and give the figures as he gave them to us and as we have them now on file in this office. He shows that Greensboro is as low as the lowest on lights, and lower than any on power and fuel. Accepting his statements as true does not prove that the rates in Greensboro are yet what they ought to be, or as low as they can be made. A proposition has already been made the city to furnish lights 25 per cent. cheaper than we are now paying. The best is none too good for Greensboro. If we can beat all other towns in the state on prices, that is our good luck and their misfortune.

But to the point, the fact that other towns pay equally as high and a higher rate is no reason why we should continue the present arrangement if we can do any better. No man, not even Mr. Marks' company, can deny that.

A good deal has been said about the proposition to give the lighting contract to a company that will construct, maintain and operate a street railway being in the nature of a subsidy. Look at it that way if you wish; but if paying \$7.50 per light with a street car line thrown in is subsidiary, we cheerfully and respectfully submit that charging \$87.50 per light without any tail-pieces or trimmings is extortionary. Don't let the number of lights change the principle in the least. The number of lights will never go beyond what the growth of the city demands or the increase in taxes will justify.

Two Pointed Questions Answered.
What is the use of making a better article than your competitor if you can not get a better price for it?
Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. E. Holton.

Discovered by a Woman

Another great discovery has been made, and that too by a lady in this country. Disease fastened its clutches over her for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at C. E. Holton's drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed.

When a Boy Goes Skating

He is Bound to
Have Skates

but it doesn't matter where else he goes, he never looks well without clothes.

"And they do say" that the Mrs. Jane Hopkins Make is the best fitting, nicest appearing, longest wearing—and one little boy in confidence to his playmate said: They are the warmest clothes that I have ever had. Mama says she is going to buy them all the time, because they are All Wool.)

Suits in ages from 3 to 16. Styles: Reefer, Middy, Sailor or Double Breast. Pants double seat and double knee, with seams all taped—you can't rip them and the buttons won't come off. For sale exclusively by
